(Some) Issues of Peace, Justice, and Sustainability to be brought up

This week in the Alaska Legislature:

- *Only Thursday*: executive sessions
- **Be aware that now almost any bill previously introduced in 2017-2018 or new wording can be introduced and acted on without prior notice or public input. CONTACT YOUR LEGISLATIVE INFORMATION OFFICE TO FIND OUT HOW TO KEEP ABREAST OF ISSUES THAT CONCERN YOU.*

from State Sen.Berta Gardner 5/10:  **“HB 312 – Crimes Against Medical Professionals And More!”** Today the Senate passed this bill which started out as addressing violent crimes against medical professionals. We added several of the Governor’s crime bills, turning it into an omnibus crime bill of sorts. The bill now includes:

- **SB 146/HB 291** – Allows the Attorney General to schedule substances by emergency regulation. Drug traffickers tend to be one step ahead of the law by changing the chemical composition of controlled substances...
- **SB 150/HB 295** – Pretrial Release; Non-AK Criminal History – allows a judge to consider a person’s full criminal history – including from out-of-state – before making an appropriate release decision for the offender and public-at-large.
- **SB 149/HB 294** – Surcharge for Commission of Offense – doubles the surcharges associated with certain crimes including felony convictions from $100 to $200; a misdemeanor DUI offense from $75 to $150; a misdemeanor or a violation of a municipal ordinance from $50 to $100; and increases the surcharge for misdemeanors and violations or infractions under state law or municipal code where incarceration may not be imposed from $10 to $20.

Additionally, three amendments were made on the Senate Floor, one of which removes the mandatory release requirement and places the discretion in a judge’s hands.

**Alaska’s Workers’ Compensation Act Updates** ... to Independent Contractor definitions, delivery of benefits to injured workers, addressing workers’ compensation fraud, addressing compliance on the part of employers providing insurance for workers’ compensation liability, etc... not ...much consensus between labor and industry so... a working group [may] tackle the issue after session, and hopefully come back to Juneau next year with an agreeable proposal.”

Currently, renewable energy accounts for only 5-10% of GVEA’s energy use.... This year’s elections will strongly influence the willingness of the GVEA Board of Directors to seriously consider renewable energy in their future power generation. You can read the candidates’ statements on the GVEA website: [http://gvea.com/inside/directors/elections](http://gvea.com/inside/directors/elections).” Questions? is. But Congress is considering changes to SNAP that will leave more than a million people hungry. **Urge Rep. Don Young to protect SNAP and vote no on the House Farm Bill, H.R. 2.**

from info@codepink.org: “Over the past 40 days, over 40 Palestinian protesters in Gaza have been killed by Israeli snipers. Thousands have been injured. According to Amnesty International, the two types of weapons being used to shoot at protesters have been the Israeli-made Tavor rifle and the US-manufactured Remington M24 rifle. The Remington M24 uses 7.62mm bullets that expand inside the body, causing gross injuries.

Bank of America recently pledged to help stop mass shootings by no longer financing companies that manufacture military-style firearms for civilian use. But they are still planning a large loan to Remington...

Tell Bank of America to cancel their loan to Remington Outdoor Co. For the sake of peaceful protesters in Gaza and far too many lives lost in the US, BoFA should follow through with their pledge help end mass shootings...

The protests in Gaza are in commemoration of the Nakba (catastrophe) in 1948, when 750,000 Palestinians were expelled from their homes inside what is now the state of Israel. 70% of Palestinians in Gaza are refugees from that expulsion. They are protesting for their freedom and the right to return to their homes. Learn more about the Nakba of 1948 and how it is continuing today in this special edition of Moving Forward. On May 15, the protests in Gaza will culminate with a big march at the border fence…”

“War resister Mattan Helman was discharged from the Israeli army after six spells in a military prison, adding up to a total of 110 days in jail. The official reason for the discharge was 'bad, grave behaviour'... Read the story on 4972.com... Israeli army regulations do permit exemptions from military service for pacifism, but those exemptions are denied to anyone whose refusal is deemed political or tied to the... are forcing a vote [this] week to overturn the FCC and restore net neutrality. It could be the most important vote in Congress about internet policy this century. And we already have 50 votes! If we convince one more senator to join us, we can win a huge victory for net neutrality. **Urgent: Will you help win one more vote and save net neutrality? Tell the Senate to vote YES on the resolution to overturn the FCC.**

from act@credoaction.com: “Tell Congress: Don't weaken pesticide regulations in the Farm Bill... The negative impact of pesticide exposure on human and environmental health is well-established and severe, including harm to the developing brains of children, a whole host of neurological disorders and even cancer. Farmworkers, particularly immigrant workers who apply millions of pounds of pesticides each year to American crops, are especially vulnerable, face higher rates of pesticide poisoning and have few legal protections.¹

“This giveaway to multinational chemical giants is set to preempt local pesticide restrictions, roll back clean water protections, allow new pesticide approvals without proper safety reviews, weaken restrictions on the toxic, ozone-depleting fungimor methyl bromide and allow the EPA to approve new pesticides without assessing the impact to endangered species.

“just in 2017, pesticide special interests spent more than $34 million on lobbying.²

Climate Action for Alaska Leadership Team (CALT)... has a draft Alaska Climate Change Policy posted online (or http://climatechange.gov.alaska.gov) and is inviting public comment on the document until June 4, 2018. This draft policy is the result of much hard work by the CALT and is responsive to the public input received thus far. We are eager to continue the conversation with Alaskans over the coming months and to hear your ideas on how Alaska’s first climate action plan can strengthen the health, safety, culture, and economy of our communities and our state. from nikoosh.carlo@alaska.gov

“A tool library is just what it sounds like: a place for community members to share resources, learn from each other, and check out tools for their own projects. The sharing economy is thriving around the country, and Fairbanks is an ideal place for such a community-based endeavor to thrive. At the tool library, neighbors exchange ideas about their projects, maybe meeting for the first time, building individual relationships and community resiliency. Individuals gain confidence in learning new skills and helping themselves.” see more about the Chena Tool Library.

(This link will take you to the event page. Hopefully, it will link the livestream @ 2.)

The Poor People’s Campaign: A National Call for Moral Revival, will begin 40 days of action to thrust the issues of poverty, racism and all forms of hate, militarism, environmental degradation and the nation’s distorted morality into the national conversation. Picking up the work of Dr. King and many others who launched the original Poor People’s Campaign in 1967, today’s effort provides a unique opportunity for peacemakers and justice seekers in various movements to work together to bring into existence a more just and peaceful world. alaska@poorpeoplescampaign.org

In laying the groundwork for direct action, the Poor People's Campaign funded an analysis by the Institute for Policy Studies to determine what had changed since the assassination of Dr. King. The results were released this month as “The Souls of Poor Folk”. Please read the executive summary of the "Soul of Poor Folks” Audit.
