perpetual warfare. Join World BEYOND War for our free webinar featuring experts Jeff Cohen and Rose Dyson on role of media in promoting war and violence. **Militarism in the Media Webinar** Militarism is the “elephant in the room,” says FAIR founder Jeff Cohen. Former TV pundit for MSNBC, CNN, and Fox, Jeff was fired for shedding light on the perils of U.S. interventionism and in particular, for opposing the invasion of Iraq on the air. Rose Dyson, President of Canadians Concerned About Violence in Entertainment, expresses concern about the culture of war that is perpetuated by TV, music, video games, and social media.

|  |  | **New Online Course: War Abolition 101: How we Create a Peaceful World: February 18 – March 31, 2019** How can we make the best argument for shifting from war to peace? What must we understand and know about the war system if we are to dismantle it? These questions and more will be explored in [War Abolition 101, a 6-week online course starting February 18](https://www.worldbeyondwar.org/courses/war-abolition-101). Each week will feature a guest expert who will help you explore weekly topics through an online chat room. Weekly content includes a mix of text, images, video, and audio. We'll dismantle the myths of war, and delve into its alternatives, concluding the course with organizing and action ideas. [Learn more and reserve your spot](https://www.worldbeyondwar.org/courses/war-abolition-101). |  |

**Peace**

“Rotary Foundation Accepting Applications for Peace Center Fellowships” - Deadline May 31, 2019 - Each year, the Rotary Foundation selects up to a hundred professionals from around the world to receive fellowships to study at one of its peace centers. Through academic training, practice, and global networking opportunities, the Rotary Peace Centers program develops leaders who serve as catalysts for conflict prevention and resolution. In just over a decade, Rotary Peace Centers have trained more than a thousand fellows for careers in peace-building, many of them serving as leaders at international organizations or who have started their own peace-building organizations.”

from WorldBEYONDWar: We can nudge people in the right direction. We asked 100 prominent people to sign an open letter to U.S. Senator Bernie Sanders urging him to address military spending. Over 13,000 more people signed it. Sanders has now produced a video of himself quoting the famous Eisenhower statements on the topic. Will he build on that? Will the Women’s March support peace? Will proponents of a Green New Deal not give the usual environmentalist waiver to militarism?

**Justice**

from Unitarian Universalist Fellowship of Fbks:: “The Social Justice Committee is collecting bedding, towels, and basic kitchen necessities to support the successful transition of previously incarcerated community members with assistance from the Fairbanks Reentry Coalition. The collection box is in the foyer. Contact Alison Carter at alisoncarter2@yahoo.com for more information.”

from National Priorities Project: “Federal Budget 101 - It is our right and our obligation to see that our tax dollars are spent in ways that reflect our priorities. To do that we need to know where that money is going, and how budget decisions are made. Federal Budget 101 gives you that crucial information.

“Data & Tools” - Explore our interactive tools that allow you to see how the federal budget affects your life and community. From Trade-Offs that compare investments in key federal initiatives to your own personal tax receipt to live counters tracking what we spend on everything from war to food assistance, NPP’s tools help bring the federal budget home... [e.g.]” For Military in 2017, taxpayers in the U.S. [paid] $647 billion. Here’s what those tax dollars could have paid for instead:

→ 8.73 million Clean Energy Jobs Created for 1 Year, or → 8.01 million Elementary School Teachers for 1 Year, or [you choose]”

**Sustainability**

“Japan’s decision to leave the International Whaling Commission could have consequences on subsistence whaling by Alaska Natives...”

Read more in the Fairbanks Daily NewsMiner.

from SoundDefenseAlliance.org regarding a ‘Massive Growler Jet Expansion’ proposed for NW Washington state: “Noise from the Growler expansion will spoil the Reserve and the historic treasures of this region: 24,000 operations/year will drive homeowners, farmers, business owners, recreationists and tourists from the Reserve, Central Whidbey and the region.

... The Navy admits that increased noise and vibration at Ebey’s reserve will damage historic treasures – money cannot fix these once they are lost.

The Navy’s offer to mitigate damage from increased noise to the Reserve was totally inadequate and soundly rejected by state and local leaders....”

Query: How will the experiences of Interior Alaska compare with the above concerns? How many “operations” will be connected with the stationing of F-35s? What will be the impacts of the noise they will generate?

Much remains to be seen, and more than seen: to be done!

from Win Without War: “Open Letter to 2020 Candidates on Progressive Foreign Policy... if we don't step in, the foreign policy debate will be more of the status quo: Jockeying to look tough by doubling down on failed military strategies and silence on the massive human toll of America’s endless wars... we’ve got to intervene right away. Add your name to the open letter demanding ... a progressive foreign policy platform!”

from info@airwars.org: “Despite highest reported civilian harm since Raqqa, Coalition slashes public accountability for strikes. - View this email in your browser.”

from Stop the War Machine (SWM): “The US-NATO led War against Afghanistan served to Restore the Illicit Heroin trade... In 2001, 1,779 Americans were killed as a result of heroin overdose. By 2016, the number of Americans killed as a result of heroin addiction shot up to 15,446... Those lives would have been saved had the US and its NATO allies NOT invaded and occupied Afghanistan in 2001. ” You can read more aThe Spoils of War: Afghanistan’s Multibillion Dollar Heroin Trade.”

from The Globe and Mail via SWM: “Saint John [Canada] protesters aim to block Saudi LAV* shipment - [“Light” Armed Vehicle]... The Saudi-flagged cargo ship Bahri Yanbu [was to be] greeted by protesters trying to prevent the shipment of these vehicles, which have been used in Riyadh’s war in Yemen... ‘Protesters say they hope the local branch of the International Longshoremen’s Association, a union with a history of refusing to move what it deems “hot cargo” – or goods intended for immoral purposes – will thwart the latest shipment...

‘This local union was honoured by Argentina for its 1979 refusal to ship heavy water for a nuclear reactor to the South American country after a military coup. Back then, protests in the city were organized by the Saint John and District Labour Council, which was working in collaboration with the Group for the Defence of Civil Rights in Argentina...

‘Again, in 2003 during the Iraq War, Saint John longshoremen declined to move military equipment destined for the Middle East...

‘In August, the Saudis expelled the Canadian ambassador and froze new trade and investment deals with Canada in retaliation for what it called “blatant interference” in its domestic affairs. It suspended Saudi Arabian Airline flights to and from Toronto and began to withdraw thousands of Saudi students from universities, colleges and other schools in Canada...”

“Off-the-scale levels of electromagnetic radiation” and a call for investigation at UN: “The 6-min video link ‘UN Staff Member: 5G* Is War on Humanity,’ submitted by readers, includes testimony, this information, and more: “By 2011, the World Health Organization classified wireless as a group 2B carcinogen.”

Also submitted, 2 links about An Electronic Silent Spring, and Wireless Devices & Wildlife.

* Douglas A. Yates <dayates@mosquitonet.com>, t. 479-8300, writer and fine art photographer, explains, “5G will require installing mini-cell towers block by block across all cities in US. 5G signals don’t travel very far, thus the need to place sending/receiving units every 200-300 feet. They will be mounted on existing power and phone line poles. 5G emits very high frequency signals that will carry info needed to operate voice-command devices in houses, apartments, business complexes and self-driving vehicles. The system allows unseen/unheard two-way comms between devices and the system. All data will be collected and organized, then sold to marketeers and social think tanks where it will be used to undermine Constitutional PRIVACY protections and modify the population’s attitudes and preferences.” [Suggests hearing] “ACLU Attorney: 5G Smart Grid Could Be ‘Wolf In Sheep's Clothing’ - YouTube”

See the you-tube of Donald Trump Anti-Wall Protest Song, heard on broadcast of this newscast, for a video collage of people’s protests against building a border wall. This is the issue over which the federal government is currently not funded. From SWM, “If you are against spending money on the Wall, the Congressional offices say communication is more effective when individuals make phone calls (as opposed to emails or form letters sent by groups). They all said that phone calls are the most effective since they get tons of emails and phone letters... Please call...” Sen Lisa Murkowski in Fbks: 456-0253/fax 451-7146; Sen Dan Sullivan in Fbks 456-0261/fax 451-7290.
Asymmetric Moose Music Picks Week of Jan. 6, 2019:

- Fairbanks’s own Robin Dale Ford. The tune is Down In My Heart of her album of the same title.
- Pete Seeger - Lorre Wyatt - Emmylou Harris – “We Are The Boat” - Somos El Barco

- the late great Boney Fingers, Hoyt Axton and Arlo Guthrie sing a song that resonates as powerfully today as it did when Arlo’s father, Woody, sang it back in 1948, to honor 32 farm workers killed in a plane crash, near Los Gatos Canyon, while being deported from California back to Mexico. The press did not even have the decency to publish their names. - the song is Deportee

- Next, bringing Woody’s sad song about the “Plane Wreck at Los Gatos” into today’s perspective, David Rovics sings ICE
- Donald Trump Anti-Wall Protest Song (see the you tube video link at Spotlight)

- To finish the set, David Rovics inspires us, singing about how Everything Can Change and “Real Quick”.
- [non-music] Col. Wilkerson warning of lies being told to get us into another war...
