"Modifying 12 risk factors over the lifecourse could delay or prevent 40% of dementia cases, according to an update to The Lancet Commission on dementia prevention, intervention, and care, which is being presented at the Alzheimer's Association International Conference (AAIC 2020). The factors associated with the greatest proportion of dementia cases in the population are less education in early life, hearing loss in mid-life, and smoking in later life (7%, 8%, and 5%, respectively)... —with an estimated 3% of cases
Per the ronpaulinstitute.org/july/30: "On Monday the Senate GOP released their outline for a new $1 trillion coronavirus stimulus package. A successor to March’s CARES Act, the 177-page document, named the HEALS Act, includes no funding for hazard pay, the Postal Service, state and local governments, nutrition assistance, or help for uninsured or underinsured Americans, but incorporates a $29.4 billion bonanza for the Pentagon. The package is presented as a necessary measure to help the country fight the COVID-19 pandemic, which has so far caused the deaths of nearly 153,000 Americans. But it appears that the GOP had a very different enemy in mind when writing some parts of it.

"To prevent, prepare for, and respond to coronavirus, domestically and internationally," the bill (pp. 35-38) allocates $686 million for the purchase of extra Lockheed Martin F-35 fighter jets, $650 million for A-10 Warthog fighter-bombers, $720 million for C-130J transport planes, $283 million for AH-64 Apache attack helicopters and $1.068 billion for P-8A Poseidon anti-submarine aircraft.

It is not just the Air Force that will benefit from the new bill; it also includes $41.4 million for Raytheon missiles, $260 million for a new Navy fast transport ship, $250 million for amphibious shipbuilding programs and $375 million for armored combat vehicles. Most of these military spending requests are ones that had previously been subject to cuts in February as the Trump administration moved Pentagon money around to fund construction of the border wall. The plan also allocates (p. 11) $1.75 billion to the FBI for the design and construction of a huge new facility in

Audio & Songs broadcast with this week’s Community News:

-- **“Hello this is The Asymmetric Moose, Rob Mulford with picks of the week of August 2, 2020.**

Two articles that appeared this week in the Fairbanks Daily News Miner struck me as prime candidates for moose picked musical accompaniment. The first, titled “US to bring 6,400 troops home from Germany, move others elsewhere in Europe”, Reports that the Pentagon says, as per orders from President Trump it will be withdrawing 12,000 troops from Germany; 6,400 back to home and 5,600 to Belgium and Italy. The article quotes the former reality TV show host with the Camarillo Brillo hairdo - you know, that guy with the Mendocino bean-o By where some bugs had made it red - as saying, “We’re reducing the force because (Germany is) not paying their bills. It’s very simple. They’re delinquent.”

Before getting to upset at the Trumpster for turning the US military into a commercial security corporation you may want to check out a document from President Obama’s DoD titled “Joint Operating Environment 2010”. On page 19 a world map shows the US on the losing side of a trade imbalance. On page 22 they say don’t worry. “**U.S. Defense Spending: The “Hidden Export”**” The global trade and finance illustration on page 19 overlooks one large export” that the United States provides to the world – the armed force that underpins the open and accessible global system of trade and travel that we know as “globalization.” At a cost of 600 billion dollars a year, U.S. Joint Forces around the world provide safety and security for the major exporters to access and use the global commons for trade and commerce.”

The article closes saying that an unnamed former top military official warned that withdrawal would hamper U.S. military strength in Europe, deepening the split between Washington and Germany and leaving fewer combat troops permanently stationed in Europe in case of war with Russia.

The second article, titled, “Third scheduled Red Flag exercise starts today (oh shit boy howdy wow), following cancellation of the first two. The article says, “The exercise which will run through August 16th, is designed to “provide realistic training in a simulated combat environment, with primary flight operations (read dropping bombs) over the Joint Pacific Alaska Range Complex”, (read Alaska wild lands). The article quotes the Air Force press release as saying “Despite COVID-19 restrictions, airmen are participating in Red Flag Alaska are ready and postured to support US commitment to security and stability in the Indo-Pacific region.”

A wise friend, living in the old city of Jerusalem, once told me, “It is the nature of the thief to be obsessed with security.” Think about it.

In his seminal book of US history, Howard Zinn chronicles President McKinley’s statement that he went to god for guidance before committing to making war on the Philippines. He was not the last to say so. Next **Bright Eyes** sing “**When The President talks to God**”

War is more than you bargained for… and war is how the rich control the poor. LA hip hop group **Dilated Peoples** sing **War**.

Many folks seem convinced that electing Joe Biden is a means to avoid major catastrophe. As far as war is concerned I have my doubts. Next David Rovics tells us about a group of Oklahomans who in 1917 had a different idea in – **Green Corn Rebellion**.

Next **Pete Seeger, Ani Difranco, Billy Bragg, and Steve Earle** have the definitive answer to Trump’s troop withdrawal. I concur, **Bring Them Home!**
