<td>[Bear Gallery] UPDATE (9/3/2020): A situation in Pioneer Park has left the Centennial Center (among other park locations) without electricity or water. As a result, we are saddened to share that our much-anticipated opening of two new exhibitions by artists J Jason Lazarus* and Jessie Hedden originally scheduled for Friday, September 4th, will be delayed. We will share more information as it becomes available and will update this page with pertinent updates along with our FB page. If you do not currently receive Fairbanks Arts e-communications and would like to, please sign up here for updates.* *&quot;Defining Alaskans through Landscape: Resilient&quot;</td>

<td>8-9:30 pm</td>
<td><strong>The Invisible Nation</strong> - The Algonquin once lived in harmony with the vast territory they occupied. This balance was upset when the Europeans arrived in the 16th century. Gradually, their Aboriginal traditions were undermined and their natural resources plundered. Today, barely 9,000 Algonquin are left. They live in about 10 communities, often enduring abject poverty and human rights abuses. These Aboriginal people are suffering the threat to their very existence in silence. Richard Desjardins and Robert Monderie have decided to sound the alarm before it's too late.</td>

**Tuesday**  
**Sept. 15**

**Application Deadline for Youth Organizer Summit.** Being a Youth Organizer (YO) means committing to work collaboratively with other young people across the state to fight for a common goal while developing skills that you will use your entire life. Sometimes youth organizers focus on climate justice and building a sustainable future. Other times they focus on issues like banning plastic bags. Every two years, the youth organizers decide what campaign to run and how to do it. Throughout the school year, you will attend regular conference calls, participate in skill training, and lead campaign actions in your community! YOs are the main point of contact for AYEA’s statewide campaign in their community, and they take the lead in pushing for change.

**In a Time of Change: Boreal Forest Stories call for applications.** The Alaska-based arts-humanities-science consortium In a Time of Change (ITOC) is seeking applicants from all disciplines within the arts and humanities for a series of collaborative workshops culminating in a group exhibit and book entitled *In a Time of Change: Boreal Forest Stories.* The transdisciplinary exhibit will to be presented in the Bear Gallery in May, 2022 and will feature multiple artists and humanists working in a variety of media, following regular interactions with scientists, to produce original works that communicate narratives rooted in the boreal forest, including its ecology, its inhabitants, and their interactions. If you have questions, contact: Mary Beth Leigh at mbleigh@alaska.edu.

**Peace**

from winwithoutwar: "The U.S. military is targeting kids as young as 13 online for recruitment — a blatant violation of strict laws that prohibit recruitment of anyone under the age of 16.

The Air Force, Army, and Navy are using one of the most popular video game platforms, Twitch, which has 63 MILLION users under 18, to target children — and they've already gotten in trouble for violating the platform’s rules with deceptive giveaways.

War is not a game. The military should NOT use deceptive and harmful tactics to recruit kids when their guards are down online — and no company should give them that opportunity. There are limits on recruiting children into the military for a reason.

Younger people are vulnerable to manipulation, particularly online. People as young as 13 can sign up for a Twitch account which makes military recruitment especially problematic.

Additionally, platforms like Twitch are built to capitalize on competition and camaraderie — recruiters are considered gaming friends, not

**Sustainability**

"COVID-19 Laptop Project Update

Green Star is continuing our efforts to help close the technology gap in Fairbanks by providing refurbished laptops to folks in need to use for distance learning, remote work, and connecting with loved ones in quarantine (see our original post about the project here).

Over the past month, we’ve contacted everyone who had submitted a request for a laptop. Most people who applied received at least one laptop and many in need received multiple devices. We try to provide every family who submits a request with at least one laptop with a camera, while also taking into account specific needs and requests.

We also began reaching out to local community organizations and groups to help connect us with more people who are in need of assistance. We worked with the JP Jones Community Center to provide 20 refurbished laptops for donation through “Bone Builders,” a program run by the Fairbanks Community Food Bank to provide kid-friendly snacks to families in need. We also donated eight laptops to The Bridge, a new program that supports adults at risk of or with
actors with an agenda. Recruiting on Twitch is deceptive and abusive. Let’s work to end this practice and ensure young people can enjoy video games without being subject to manipulation.

Sign now and urge Twitch to ban military recruitment and protect younger users.

A month ago, Representative Alexandria Ocasio-Cortez offered an amendment to the massive defense spending bill that would ban any taxpayer dollars from going to military recruiting on Twitch, but unfortunately the measure was defeated by members of Congress who simply do not understand the seriousness of this issue.

So it’s up to us to continue the fight. At a time when many young people in the United States are struggling to confront economic instability, heightened rates of domestic violence, and disruptions to their education under COVID, we cannot allow military recruiters to engage in deceptive practices.”

"Department of Energy concludes no rigorous environmental analyses needed for vast expansion of Los Alamos nuclear missions, including plutonium bomb core factory...proposed expansion/reinvestment at Los Alamos National Laboratory (LANL)... will involve processing large quantities of plutonium and producing plutonium "pits," the cores of nuclear weapons, on an industrial scale... [Already] at an estimated $13 billion over the present decade... This mission -- unprecedented for LANL since the late 1940s, when it resulted in considerable air, ground, and water pollution -- will produce large quantities of nuclear waste. NNSA has made clear that disposal of this new life to head to the polls. We urge you to share a unique comment to the Lt. Governor and his staff, asking them to adopt safe & secure regulations for this year’s election."

"US Air Force Announces Five-Year Review Complete... of contaminated sites under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) at Eielson Air Force Base (AFB).... The US EPA and the Alaska Dept of Environmental Conservation participated and agreed with the conclusions...

However, data gaps regarding contaminant delineation affect long-term protectiveness. Protectiveness determinations regarding the remedies for [nine] source areas were deferred, pending an evaluation of the vapor intrusion pathway.

Detailed information concerning Eielson AFB cleanup efforts and the findings of the Five-Year Year Review are available online."

"the Alaska Supreme Court affirmed an earlier Superior Court ruling upholding the fundamental constitutional rights of Alaskans to vote on Ballot Measure 1 this November."

"Opioid Use Disorder. Green Star is proud to support these organizations, as well as many others, including the Boys & Girls Club, Stone’s Throw, and the Interior Alaska Center for Non-Violent Living. Partnering with other organizations means that we can provide as many community members as possible with access to donated refurbished laptops. Although we have developed methods to refurbish old laptops efficiently and with relatively low costs, we are currently in need of some specific supplies to support this program:

- MacBook power supplies
- SD Cards (any size, but at least 8GB is preferred)
- USB flash or “thumb” drives (any size, but at least 8GB is preferred)
- Blank/unwritten CDs (any size)
- Laptop hard drives (any size)

If you’d like to donate any of these items to the COVID-19 Laptop Project, please contact project lead Orren Wilkinson at (907) 452-4152 or orren@iagreenstar.org and we will coordinate with you!

We are also grateful for any donations to Green Star to help support this and other programs. While much of the work is done by volunteers, your donations will help support staff time to oversee the COVID-19 Laptop Project, as well as the purchase of needed supplies such as those listed above. You can support Green Star anytime via our online donation page. If you or someone you know needs a device to connect to family, perform remote work, or support children who are learning online due to COVID-19 related issues, please fill out this form to be added to our list for a donated refurbished laptop. You can also submit a request by calling us at (907) 452-4152 and answering a few questions."
waste will take priority over the long-deferred disposal of about 18,000 drums of legacy nuclear wastes at LANL, currently perched a mile or so west of White Rock and directly adjacent to and above a Native American sacred area. ..." Read the press release from Los Alamos Study Group.

[Next week: Continuing to Reduce Single-Use Plastic: A Reflection from ‘The Story of Plastic’]

"Climate, Jobs, and Justice Candidate Forum! Thirteen candidates and over 100 people joined us for a genuine, thought-provoking, and question packed forum. If you missed the event, you can check out the live video here! >> from the Alaska Center

Audio & Songs broadcast with this week’s Community News:

"Moose Picks ... Hello this is Rob Mulford, the Asymmetric Moose, with picks for the week of 090620.

Well, I’ve finally done it; busted free of my COVID-19 Quarantine; got my second COVID RNA test results this past Wednesday and it was negative. Boy howdy, no longer forced to endure the pickling of peaches; canning of Yukon Kings; blanchin’, baggin’, freezin’, fresh vegetables while eating my fair share of the same; pickin’ my five string fretless banjo; creatively immersin’ myself deep into the character development and storyline of my historical novel about my days as a Colorado underground coal miner; or hikin’ the hill, high up above my purple house to gather – into a plastic container, my mouth too – fists full of tangy translucent high bush cranberries; I was free to mount my trusty fossil-fuel-burnin’ mode of transportation – she had been patiently waiting two weeks for me parked in my driveway. Oh yeah... “Love, it’s what makes a Subaru”, heard that – don my PPE mask and then brave the waters of the Fairbanks road system.

I was not in too big a hurry, so I poured myself a cup coffee, and was settlin’ down at my kitchen table to enjoy my morning reading of the
Fairbanks Daily News Miner, when it struck me like a lung full of gas from a maggot infested pile of discarded caribou carcasses, and that it was, all written up in the News Miner, complete with a front page photo, taken at the scene of the massacre, the scenically beautiful Pinnell Mountain Trail. I can’t say I was surprised – totally disgusted but not surprised – for I had visualize something of the kind happening when I heard of the hunt earlier. The paper placed the blame for the destruction and carnage on inexperienced hunters. Somehow, I feel that the problem runs much deeper; like war, gluttony… And…

Needing fresh air and to run some errands, I hopped into my Subaru and headed for town. While traveling down Lathrop Street, I happened upon another image that brought on a second bout of the same digestive system discomfort. Proudly posted in the middle of Local 302 International Union Of Operating Engineers, my other union - I’m also a member if the IWW – was a large campaign sign proclaiming Vote No On Prop. 1. Visions of the rotting carcasses and wanton destruction of our depleting social services and public education filled my minds eye.

All I could think of to say to my brother and sister OE’s is which side are you on. Anyway, tomorrow is Labor Day. There will not be a parade or picnic this year so you might just wanna do a little surfing, try Googling a few terms like solidarity, class, and intersectionality for instance.

Todays first tune is dedicated to the sign on Local 302’s lawn; **Ry Cooder sings, I Got Mine.** [USWB19903205] I guess the next tune can be applied to Arctic Costal Plain, the Porcupine Caribou herd, as well as our valuable social services and schools; **Tom Paxton sings When Its Gone Its Gone.** [USHM21446554]

And, speaking of intersectionality and solidarity try thinking of the nest tune with additional verses, addressing indigenous, immigrant, and gender issues. **Phil Ochs sings Links On The Chain.** [USEE10182551]

Modified for today, from one of my very favorite novels, The Grapes of Wrath, **Rage Against The Machine sings – Ghost of Tom Joad"**
