"A new book which aims to change the U.S. culture to one that celebrates its peacemakers. “In a culture that funds and esteems war-making, respect for peacemaking must be taught and modeled. We can change our cultural mindset so that it will no longer be acceptable to label those who speak out against a U.S. war as disloyal, anti-military, or unpatriotic. Rather,” says [author Dr. Michael D.] Knox, “they will be recognized for their dedication to a noble cause and to saving lives.” See more” from Veterans For Peace. [also:]

shutoffs. During an economic and health crisis, it is unethical to turn off our neighbors’ heat and power in the middle of sub-Arctic winter.

Thanks to a concentrated effort by FCAC staff, the Renewable Energy Working Group, and partner organization AKPIRG, nearly 80 people attended GVEA’s Board Meeting on Monday 12/14. Several legislator comments and every member comment emphasized the importance of caring for our community during this difficult time. Most comments were in explicit support of extending GVEA’s moratorium on utility shutoffs and COVID-19 Deferred Payment Plans. Due to the outpouring of community support, GVEA has agreed to extend their acceptance of COVID-19 Deferred Payment Plans, and announced that they will be establishing a Benevolence Fund which will offer financial assistance for utility bills to those in need. We have to ensure protections are in place until the fund is fully operational. Over 800 members-owners are facing disconnection now that the moratorium has ended. We will continue advocating for a moratorium on utility shutoffs – stay tuned for ways to get involved!" from Fairbanks Climate Coalition

February 8: Revised Arctic Rule. On December 9th, the Bureau of Safety and Environmental Enforcement (BSEE) and the Bureau of Ocean Energy Management (BOEM) released a proposed rule that would greatly weaken essential oil spill and safety regulations for offshore drilling in the Arctic Ocean put in place during the Obama Administration.

March 11: Central Yukon Resource
Management Plan Draft EIS. The Central Yukon Draft Resource Management Plan/Environmental Impact Statement (RMP/EIS) aims to shape how the BLM manages about 13 million acres of public lands, including a utility corridor along the Dalton Highway, for the next few decades. When complete, the Central Yukon RMP would combine three existing management plans and provide decisions for managing unplanned lands west of Fairbanks.

Audio & Songs broadcast with this week’s Community News:

"Hello this is Rob Mulford, the Asymmetric Moose, with picks for the week of December 20th, 2020:

I’ll apologize up-front if in selecting today’s pick of the week, I have somehow disappointed anyone’s expectations of hearing a program festooned with jolly renditions of Deck the Halls and Good King Wenceslas. By and large, kings have not been all that good – neither have presidents, for that matter. Instead, and in the spirit of the birth of the Prince of Peace - a realm from which a great joy may take the world, should a considerable number of his followers decide to dwell - I would like to share a couple tunes of love and human solidarity.

First with Barbara Dunn on vocals, Kimmer Morris on violin, and Mark Wahl on percussion, the Open Circle Singers sing Fred Small’s song about the people of Billings, Montana standing between hatred and Jewish members of their community in “Not In Our Town”.

A little known international display of solidarity demonstrating the human longing for peace happened in 1914, five months into the “War to End All Wars”. In the week leading up to the 25th December, French, German, and British soldiers crossed trenches to exchange seasonal greetings and talk. In some areas, men from both sides ventured into no man’s land on Christmas Eve and Christmas Day to mingle and exchange food and souvenirs. There were games of football, joint burial ceremonies, and prisoner swaps, while several meetings ended in carol-singing. Next John McCutcheon sings "Christmas in the Trenches"

Wage Peace."
