Tuesday March 30
12-1pm  Compost: One Part of your Personal Sustainable Lifestyle
Information: Jodie Anderson, jmanderson@alaska.edu.

6-7pm  Extending the Growing Season with Sustainable Heat taught by Extension Energy Specialist Art Nash
Information: Art Nash, alnashjr@alaska.edu.

Wednesday March 31
PFD Filing Reminder - "You can file for your Permanent Fund Dividend at pfd.alaska.gov. After you have completed your application, remind your friends and family to file online (https://youtu.be/uLQ8FmYMCUA). Saving paper and reducing waste are just a few of the many benefits to filing online. If you applied by paper, ... Paper applications are still being processed. The application period ends at 11:59 p.m. on March 31." from pfd.alaska.gov

Deadline to confirm a Solarize area- Whether you want to become an Area Organizer and lead the next area campaign, or if you are just thinking about installing solar this year, we're looking for Interior residents and leaders interested in solar and energy efficiency to sign up to Solarize. Homes, businesses, congregations, community spaces, and non-profit organizations are welcome to join the Solarize Fairbanks campaign. Sign up to join and get more information on Solarize Fairbanks >>

Thursday April 1
7 pm  Alaska Peace Center Annual Meeting welcoming new members and new board members - 3 board seats will need to be filled due to term limits - Help keep Alaska Peace Center going to keep advocating, educating, and activating for Peace, Justice, and Sustainability!
P.S. See our just-published APC Newsletter and our website to learn about the work we do.

Audio & Songs broadcast with this week’s Community News:

"Hello this is Rob Mulford, the Asymmetric Moose, with picks for the week of March 21", 2021,
Friday’s Fairbanks Daily News Miner contained an insert that I found most informative and interesting, the March 19, 2021 edition of Alaska Post, The Interior Military News Connection, Fort Wainwright, Alaska. Of greatest interest to me was the headline article; Army announces release of Arctic Strategy.

The article opens with the statement, “The U.S. Army announced the release of its Artic strategy March 16, “Regaining Artic Dominance.”

The article explains, “This strategy is timely, especially given increasing levels of” what it calls “great power competitor activities in the Arctic””– If you wonder the meaning, keep in mind the strategy’s subtitle “Regaining Artic Dominance.”

Apparently, this strategy calls on the Army to “Powerfully project our forces” operating in the Artic to “enhance our ability to respond on competition, crisis, and/or conflict. This enhanced Arctic capability will increase the Army’s ability to operate extreme cold-weather, mountainous and high-latitude environments.”
What does enhanced Arctic capability entail? The article explains: “The Arctic is an opportunity to rapidly employ the speed, range and convergence of cutting-edge technologies being developed for Multi-Domain-Operations.” (War industry buzzword alert, beep)

The strategy, “To regain the Army’s Arctic dominance” entails the Army establishing a Multi-Domain (beep) enabled operational two-star (beep) headquarters with specially trained and equipped combat brigades to increase our cold-weather dominance. (Ice baths and rubber toys? Naw, but it does sound kinda kinky huh? I can almost hear our local officials salivating over the economic development opportunities.)

The whole business brings me back to a Special Operations Conference I attended nine years ago. One of the speakers was Col. Richard Samuels, Deputy Commander, Special Operations Command Africa. At the time US AFRICOM did not have a base on the continent. He spoke of the difficulties the command was experiencing getting access to many parts of that continent, but pointed out the “good” work that the Command was doing training and arming its partners there with latest cutting-edge technologies.

During the question and answer period that followed someone asked, “What is your relationship and how do you coordinate with the African Union, and the Arab League, and these other Trans National Organizations that also reside in that region?”

Col. Samuels replied, “The truth of the matter is: in addition to suspicions that linger of ‘Western Interests’, there’s lots of suspicion amongst the African countries, uh, themselves. You know, ‘What does my neighbor really want from me.’ Agencies like the African Union are not very effective because there is so much mistrust amongst nations. It’s difficult to make anybody over there a leader. So we try, we are trying to take an original approach. We are trying to work with our partners, individually.

When asked about China’s influence in Africa Col. Samuels said, “China is building schools, hospitals, and roads in Africa, hand over fist. Which is even in access that we don’t have. Um, it’s a very difficult situation. We have to be demonstrating how our approach (training and arming partners with cutting-edge weapons systems) is more effective to our First Nation Partners. That often does not resonate in fact. More often than not it doesn’t.”

If we could somehow train those active salivary glands that I mentioned earlier to invest their interests into making this planet a healthy and friendly place to live instead of making every inch of land, water, sky, and cyberspace etc. a battlefield for achieving Full Spectrum Dominance over the Multitudes of Domain, maybe that strategic approach wouldn’t resonate here either.

My first music selection says it all. Edwin Star sings War What Is It Good For.

Next Jimmy Cliff sings about the sad harvest from a recent – for me anyway – U.S. Power Projection past, in Vietnam

Next the Neville Brothers sing my favorite version of a Bob Dylan classic pointing to one of the roots of that misguided strategy as described in Friday’s Alaska Post, With God On Our Side.

What is to be done? The next tune goes out to my dear brother and sister warriors, stationed here in Interior Alaska. I hope you can take Phil Ochs, chosen path to heart. I Ain’t Marching Anymore

In imagining a future free of Multi Domain Full Spectrum Dominance, I offer John Lennon’s Imagine. Wage Peace."
Alaska Peace Center works for peace, justice, and sustainability - individually, in our community, and globally - with a commitment to nonviolent conflict resolution.

You can contact Alaska Peace Center volunteers via email at info@alaskapeace.org

Visit our website: www.alaskapeace.org for more information and details, or to get on our email list, to which the expanded news brief is sent with active hyperlinks; also see Alaska Peace Center Facebook.
